

Australian Ethical Australian Shares Fund

Australian Ethical

Fund Profile - 31 March 2024

Australian Ethical is one of Australia's leading ethical fund managers. By investing responsibly in well-managed ethical companies, we deliver competitive financial performance to our clients and positive change to society and the environment. Since our inception in 1986, our Ethical Charter has guided all investment decisions and underpinned our business practices. Every year 10 per cent of our profits* are distributed to charitable organisations and social impact initiatives through The Australian Ethical Foundation.

Investment objective

To provide long-term growth focusing on Australian companies that meet the Australian Ethical Charter.

Investment strategy

The opportunity to invest in a diversified share portfolio of companies predominately listed on the ASX and selected on the basis of their social, environmental and financial credentials. The Fund utilises an active stock-picking management style with stocks generally selected for growth rather than income, with a bias towards smaller capitalisation stocks listed on the ASX. All stocks are chosen on the basis of relative value where we deem the risks are being adequately priced.

Total returns are calculated using the sell (exit) price, net of management fees and gross of tax as if distributions of income have been reinvested at the actual distribution reinvestment price. The actual returns received by an investor will depend on the timing, buy and exit prices of individual transactions. Return of capital and the performance of your investment in the fund are not guaranteed. Past performance is not a reliable indicator of future performance. Figures showing a period of less than one year have not been adjusted to show an annual total return. Figures for periods of greater than one year are on a per annum compound basis. The current benchmark may not have been the benchmark over all periods shown in the above chart and tables. The calculation of the benchmark performance links the performance of previous benchmarks and the current benchmark over the relevant time periods.

*(after tax, before bonus expense)

**The Benchmark was the composite S&P/ASX Small Industrials Accumulation Index from inception until 12 August 2019 and is the S&P/ASX 300 Accumulation Index thereafter.

A full explanation of all the fees and costs that you may be charged for investing in the Fund is provided in the Fund's Product Disclosure Statements available from our website australianethical.com.au

Why invest ethically?

Portfolio diversification: Diversify your portfolio by investing in companies and sectors not well covered by other fund managers and brokers.
Help build a better world: Invest in the new, low-carbon economy, fund medical and technology breakthroughs, efficient transport and more.
Promote human rights: We strive to avoid any investment in companies involved in the poor treatment of asylum seekers or the exploitation of workers through poor working conditions.

Commentary

The Australian Shares Fund (Wholesale) (the 'Fund') rose by 8.7% net of fees for the March quarter, outperforming the benchmark which rose 6%. The Australian Shares Fund (Retail) option rose 8.5% net of fees, also outperforming the benchmark. The Fund benefited from stock selection in large cap names and the exposure to small cap companies, which outperformed their large cap counterparts during the March quarter. The Fund's investments in the Technology sector added value during the period due to stock selection with strong share price performance from holdings like Bravura and Gentrack. The Fund also benefited from the underweight position in the Materials sector, which underperformed due to weaker commodity prices. The Healthcare and Consumer Discretionary sectors detracted from performance during the quarter. We see interest rates remaining stronger for longer, with market multiples elevated making the investment back drop more challenging and ultimately vulnerable to external shocks.
