

Australian Ethical is one of Australia's leading ethical fund managers. By investing responsibly in well-managed ethical companies, we deliver competitive financial performance to our clients and positive change to society and the environment. Since our inception in 1986, our Ethical Charter has guided all investment decisions and underpinned our business practices. Every year 10 per cent of our profits* are distributed to charitable organisations and social impact initiatives through The Australian Ethical Foundation.

Investment objective

To provide long term growth accompanied by high levels of risk through holding growth assets. The Retail Fund aims to achieve returns 4.00% above inflation after management costs over a 10 year period. The Wholesale Fund aims to achieve returns 4.50% above inflation after management costs over a 10 year period.

Total returns are calculated using the sell (exit) price, net of management fees and gross of tax as if distributions of income have been reinvested at the actual distribution reinvestment price. The actual returns received by an investor will depend on the timing, buy and exit prices of individual transactions. Return of capital and the performance of your investment in the fund are not guaranteed. Past performance is not a reliable indicator of future performance. Figures showing a period of less than one year have not been adjusted to show an annual total return. Figures for periods of greater than one year are on a per annum compound basis. The current benchmark may not have been the benchmark over all periods shown in the above chart and tables. The calculation of the benchmark performance links the performance of previous benchmarks and the current benchmark over the relevant time periods.

Ratings and awards

RIAA Certification:

Why invest ethically?

Portfolio diversification: Diversify your portfolio by investing in companies and sectors not well covered by other fund managers and brokers.

Help build a better world: Invest in the new, low-carbon economy, fund medical and technology breakthroughs, efficient transport and more.

Promote human rights: We strive to avoid any investment in companies involved in the poor treatment of asylum seekers or the exploitation of workers through poor working conditions.

Commentary

The High Growth Fund (Wholesale) delivered a net return of 3.8% for the quarter ending 31 December 2024, slightly trailing its benchmark, which returned 4.0%. The High Growth Fund (Retail) delivered 3.7% net return for the quarter.

Following a strong year for equity markets, the December quarter saw a modest pullback in domestic equities, with the ASX 300 Total Return Index declining -0.81%. However, the Fund outperformed its benchmark in domestic equities, primarily due to its underweight position in the Materials sector, as large-cap resource stocks continued to struggle amid ongoing concerns over China's economy.

International Equities: The strongest contributor to the Fund's performance, driven by double-digit returns from large-cap US stocks, with the MSCI World ex-Australia Index posting an impressive 12.1% gain for the quarter. Global Listed Real Estate delivered benchmark outperformance during the period.
